

## ***WATERMAN ULTRA LITE NASCAR CABLE DRIVEN FUEL PUMP***

### **The WRC Ultra Lite Nascar Fuel Pump**

has all the same reliable components as the standard red NASCAR FUEL PUMP ( which has been winning championships since 2006 in NASCAR) The shafts are rifle bored and the pump and brackets are scalloped to remove as much weight as possible without sacrificing performance. Removal of the pump from the car has been made easier, simply remove 2 retaining nuts. The Mounting Bracket stays with the package tray, making servicing of pump or cable a snap!

<b>NAS150LW</b>	Ultra Lite Nascar Fuel Pump 150 Gear Needle Bearingsw/Scalloped Mount Lg. or Sm. Nut
<b>NAS200LW</b>	Ultra Lite Nascar Fuel Pump 200 Gear Carbon Bearingsw/Scalloped Mount Lg. or Sm. Nut
